Professional Summary

Detail-oriented Computer Science studen with strong interest in software development, programming, and problem-solving. Skilled in languages like python and java with knowledge of web technologies and database management.

Education

- **B.Tech in Computer Science & Engineering**, SRM Institute of Science and Technology, Ramapuram, Chennai
May 2026 – Present
CGPA: 7.36/10.0

Technical Skills

- **Programming:** Python, Java, and Dsa
- **Software:** RESTful API design, VS Code
- **Data/Analytics:** Data structures & algorithms
- **Tools:** Git, Linux

Experience

NeoSkill python development

Summer 2026

- Completed a Python Developer internship at NeoSkillz focusing on Python programming and real-world application development. Worked on developing and testing software solutions using Python, gaining hands-on experience in coding, debugging, and project implementation. Improved technical, analytical, and problem-solving skills while collaborating on practical development tasks and learning modern software development practices.

Projects

• Bus Reservation System

Developed a Bus Reservation System using Python and MySQL to manage bus schedules, seat booking, and passenger details efficiently. Implemented features like user login, ticket booking, cancellation, and database management with a simple user-friendly interface..

• Loan prediction system

- Developed a Loan Prediction System using Python and Machine Learning to predict loan approval based on customer data. Implemented data analysis, model training, and prediction features to improve accuracy and support decision-making.

Achivements

- Tryhackme - pre security
 - Leetcode- <https://leetcode.com/u/X4B3oGfcIE/>
